

My name is Brooke age 11 I enjoy nature my favourite thing that makes nature interesting is you never know what you may see, as different animals are out different times of the year. I go on family walks with my mum, dad and sister to our local beach in Aberaman where I see lots of different marine and birdlife, and I also visit Afen forest park where I have recently seen a buzzard and a fox and various other birds and plants also love going rock pooling to Braelets bay in muntra which I did last week and found lots of marine life, including a ~~crab~~ crabs, shrimp, benny and a hermit crab plus limpets. In the bay I also saw a grey seal bobbing up and down in the water. I also have walked a few miles of the Welsh coastside park and in the last ~~two~~ weeks visited Rhosili Beach and walked over to Worms head.

Nature makes me feel happy

I would love school trips to be organised to ~~visit~~ nature places eg. forest parks, nature reserves.
