

This is me!!!

I love taking pictures of nature either at home, in the Peak District, in Pembrokeshire or on Skomer. ☺

All the pictures on this poster were taken by me (except the bottom one). Spending time in nature makes me feel happy. Nature is beautiful and one can discover so much; on land and in the sea. It would be good, if there were schools or holidays clubs in national parks so that we kids could be in nature while our parents are working.
